Power Chain)
Saw Apparatus) #8386

INTERVIEW SUMMARY

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450
Sir:

In response to the summary of the Interview of March 21, 2005, the summary set forth is correct with regard to Claims 7-9, inclusive, with the exception that the phrase "housing means for housing said saw when not in use, hydraulic means for powering the chain saw out of the housing for use in sawing" was proposed to be added to Claim 7. This novel housing feature for the saw was already recited in Claims 8 and 9 in varying scope, and was proposed to be added to Claim 7 to provide further patentability to the claim. These proposed amendments were set forth in the amendment mailed March 21, 2005.

Respectfully,

Robert E. Kleve, Attorney, Ph. 701-772-4311
